

Children's Center

Tot Time Enrichment Four Year Old Program

“We educate the whole child.”

Our highly trained and experienced staff will introduce your child to a learning environment like no other, offering a curriculum that is interdisciplinary and dynamic.

Well rounded curriculum, focusing on Kindergarten readiness skills.

Students will work on their understanding of the alphabet, identifying and writing their letters and sounds. Our four year old Students will work on their understanding of the alphabet, identifying and writing their letters and sounds.

We provide each student with a personal portfolio and notebook to better enhance their experience with the alphabet, number, colors, etc.

Weekly Themed Units

Each week is themed, exposing the students to a different country or part of the world, life skills (such as scissor and pencil holding). We also introduce the students to American Sign Language. Each week will also feature a different fundamental value such as friendship, kindness and generosity, urging our students to always be the best people they can be.

Mathematics and Science

These subjects are always approached in accordance to the weekly units using manipulates and hands-on activities. For example, during Apple Appreciation week, students practice math skills by counting and matching various apple seeds in the Math center, scientifically looking at the parts on the fruit and cooking with it.

Song and dance

Incorporating music and dance in the classroom fortifies student speech and memory skills while being entertaining fall all. Our students work on presenting a winter and end of the year theatrical production.

Physical Education and Free swim

The physical education aspect of our program will encompass everything from yoga to physical game and play. Children will also be given the opportunity to free swim in our “kiddie pool.”

Free Play and Socialization

Whether it is playing in our secure, state of the art playground or in one of our classrooms/gymnasiums, students will have the opportunity to forge their first friendships with classmates and just learn how to independently “be themselves.”

Some of our weekly units include: Ancient Greece, American Presidents, World Countries, Environmental Awareness, Penguins, African Safari, Environmental Appreciation, Planets and Solar System, Artist Spotlight, Eric Carle author study, etc.
